Say Hello to Summer!
Deepening Our Capacity as White Change Agents: Exploring Internalized Dominance

**Location:** The Artery (254 Linden Street)

**Date:** Sunday June 4th

**Time:** 6 pm — 8 pm

There is a professional development/educational opportunity in the Fort Collins community focused on racism and white allyship, facilitated by Dr. Kathy Obear. The workshop is hosted by *Showing Up For Racial Justice – Fort Collins*. The event is free, but SURJ will be collecting donations for accountability partner, Anti Racism Movement, Fort Collins (ARM). Childcare will also be provided.

Come for a very interactive, engaging evening with Dr. Kathy Obear as we explore what it means to be a white change agent working for racial justice in the US. We will learn how we can be better partners with people of color as we work to dismantle racism in organizations and in society. Specifically, we will identify and discuss the common racist behaviors and attitudes of white allies that disrupt our ability to create meaningful change.

Dr. Kathy Obear is an organizational development consultant and trainer specializing in creating inclusion, team and organizational effectiveness, conflict resolution, and change management. For over 30 years, she has given speeches, facilitated training sessions, and consulted to top leaders at hundreds of universities, human service and K-12 organizations, and corporations across the United States and internationally about how to create inclusive, socially just environments. She is the author of the recently published book “...But I’m Not Racist! Tools for Well-Meaning Whites.

RSVP is highly recommended. Childcare will be provided in the space. Email focosurj@gmail.com and let them know children’s names, ages, and any allergies etc.

"The principles that guide my work include integrity to my values of compassion, a belief that all people have worth, patience, a belief that justice, equity, and love are essential to our survival/success as humans. I see the work that I do as part of a larger plan and I am yet but a contribution, doing what I've authentically been given to do, and believing that if we all can live in authenticity, oppression won't stand a chance."

NACC hosts a week long STEM Institute for Native American high school students from Denver Public Schools, and Adams 12 School District. The institute focuses on engaging Native students about STEM majors and careers. This summer will be the 6th year we have hosted this program, and this year we are adding a networking dinner to engage students in talking to others about their future. We have invited representatives from key offices around campus.

This year, the camp runs June 11 – June 17, and the networking dinner will be on Wednesday, 6/14 from 5:30pm – 7pm in the LSC Long’s Peak Room. They are planning on having about 30 students attend, plus some of our Native CSU students. Contact Ty Smith via his email tyrone.smith@colostate.edu if you have any questions.

LORENZO DE ZAVALA
YOUTH LEGISLATIVE SESSION
June 18-25, 2017

Started in 1983, the overall challenge of the LDZ is for the students to envision themselves as part of the future leadership of a 21st Century Latino community.

They are invited to this eight-day intensive leadership experience filled with unexpected and unplanned challenges and hurdles. Known as “LDZ,” this experience is an opportunity for young people like you to learn how to navigate, manage and create large organizations by taking charge of your own youth government and proposing future community policies and projects.

These statements are common descriptions used by 10th and 11th grade students across the United States and Latin America to explain the LDZ experience.

Since the first project in Austin, Texas, in 1982, students from over 25 states and four Latin American nations have convened at one of six host sites to play this leadership game of vision, influence and construction of communities of the future. Each host site serves between 150-200 students from throughout the United States and parts of Latin America.
