INVEST IN OUR FUTURE

An undergraduate degree or graduate degree, for many deserving students, is unattainable without scholarship and fellowship support from generous individuals, companies, and foundations. There is no greater gift to these students, and society, than the opportunity to pursue higher education and use that education to better our world.
STUDENT SCHOLARSHIPS ALLOW COLORADO STATE UNIVERSITY TO:

- Let students concentrate more fully on their studies.
- Help make a college degree affordable.
- Ease the burden of working outside jobs with long hours.
- Attract the best and brightest students.
