One School, Three Universities, Endless Possibilities

Built on the collective expertise of faculty and staff from the University of Colorado, Colorado State University, and the University of Northern Colorado, the Colorado School of Public Health stands at the forefront of public health in the Rocky Mountain Region. Each campus offers a unique identity and student life experience, robust academic learning opportunities, and access to renowned faculty and a network of community partners and future employers. The School, which offers 42 degrees and programs across the five core areas of public health, is well-positioned to improve health in the communities it serves, both locally and globally.
