Colorado State University is hosting a five-day hands-on workshop on Next-Gen sequencing and genomics data analysis for graduate students, researchers, and faculty.

Topics include:

- Gene Expression and Functional Genomics
- Microbial Genomics
- Population and Evolutionary Genomics
- Genomic Data Visualization

Instructors: Kim Hoke, Ph.D.; Tai Montgomery, Ph.D.; Dan Sloan, Ph.D.

Registration fee of $5800 pesos includes lodging, breakfasts, and lunches. Registration details will be available shortly.
